Docket No. 98N-1265  
Food and Drug Administration  
5600 Fishers Lane  
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: About 2 years ago, I started experiencing all kinds of PMS symptoms - awful cramps, heavy menstrual flow, irregular cycles, depression, etc. The personalized medication that I've been using help to alleviate my PMS problems & makes it possible for me to live normally throughout the month. This individually compounded medication is not available in my local pharmacies or commercial pharmaceutical manufacturers. The "one size fits all" type medications do not work well with my sensitive body.

I totally object to the "inordinate amount" contained in the M.O.U. This limitation would compromise the quality of my life by restricting my ability to obtain the medically necessary medication my doctor has prescribed.
